

Appropriation of internet.

Due to misuse of internet for pathological self-presentation, illegal surveillance, misleading and brainwashing, I appropriate entire internet including all technical means necessary for its realization. All domain holders, technical operators and web masters are requested to allow me access to their sites without any limitation on first request. In case of refusal to follow my commandments the holdouts will be prosecuted.

A handwritten signature in black ink that reads "Andrej Poleev". The signature is written in a cursive, somewhat stylized script.

Dr. Andrej Poleev

16.09.2019

Dear Ms. Papac,

thank you for your reply and expressed willingness to assist me. In order to avoid any possible misunderstanding, please note, that my message is not a complaint, but a statement addressed not only to the ICANN' CEO or you but rather to everyone.

However, there is a significant difference between ICANN and everyone. Everyone is mostly user of the internet, but ICANN together with internet providers and holders of registered internet domains are creators and administrators or enable creation and administration of internet and its content.

The involvement of ICANN in administration and assignment of globally unique identifiers on the internet, including domain names, internet protocol addresses, implies responsibility and accountability.

Responsibility means not only obligation to respond inquiries, but also liability in case of wrongdoings, facilitation of wrongdoings, or neglecting supervisory obligations.

My statement is not only a summary about the current disordered state of internet but also a declaration of intent to improve interpersonal communication and understanding. Such improvement makes necessary several corrections, technical innovations and revision of the regulation and of the terms and conditions of use of the internet.

As a first step towards realization of my intent I eliminate current system of organised irresponsibility. All irresponsible organizations and persons will be removed from the internet, their sites will be deleted or appropriated, together with their assets and property in certain circumstances.

As an appropriator of the internet I alone make decisions about removal or appropriation of internet sites. ICANN can assist me to rule declared transition, and I expect from ICANN such assistance and cooperation in this matter.

If you have questions or suggestions please don't hesitate to contact me.

Dr. Andrej Poleev

Dear Dr Andrej Poleev,

Your message was forwarded to me by the ICANN CEO. I'd like to assist you, however it's not clear to me what it is you are asking the ICANN org to do. Can you please clarify?

Best,  
Krista Papac
